Like last year we want to offer something a bit different during Christmas season – a new way to enjoy Christmas table without queuing or rush. We offer you traditional Christmas flavors in a modern packaging, served to the table.

The food will be served to the table in five (5) rounds. To start with you will be served a selection of herring and cold cuts for the whole table to share. Next in line is our famous potato dish and as main course we are naturally serving organic pork from Skogsjö gård. Cheese is also a part of Christmas, so the fourth serving will be a cheese plate with side dishes. The Christmas dinner will be ending traditionally with a dessert and some small goodies.

You do not want to miss this – warm welcome!
