Same as previous years we want to offer something a bit different during Christmas season – a new way to enjoy Christmas table without queuing or rush. We offer you traditional Christmas flavors in a modern packaging, served to the table.

The food will be served to the table in five (5) rounds.

To start with you will be served a selection of herring, and cold cuts for the whole table to share. Next in line is a warm middle dish, and as main course we are serving turkey from Hemmanet. Cheese is also a part of Christmas, so the fourth serving will be a cheese plate with side dishes. The Christmas dinner will be ending traditionally with a dessert and some small treats.

Come and celebrate the Christmas season with us at HEJM!

– warm welcome!
